Seasons & Nature

Answer key with fun facts · Ages 8+

1 What is it called when animals travel long distances with the seasons?

Answer: C. Migration

Birds, whales, butterflies and fish all migrate.

2 What colour do many leaves turn in autumn?

Answer: D. Red, orange and yellow

Cold nights and sunny days make the best autumn colours.

3 In which season do many birds build nests and lay eggs in the UK?

Answer: D. Spring

Longer days and more food make spring the perfect time to raise young.

4 What is it called when birds replace their old feathers?

Answer: B. Moulting

Ducks lose all their flight feathers at once and can't fly for a few weeks.

5 What is the dawn chorus?

Answer: C. Birds singing at first light

It's loudest in May. International Dawn Chorus Day is held on the first Sunday of May.

6 What is a group of geese on the ground called?

Answer: A. Gaggle

In the air, a group of geese is called a skein.

7 When do most UK trees lose their leaves?

Answer: D. Autumn

Dropping leaves helps trees save water and energy through the winter.

8 Spring follows winter.

Answer: True

In the UK, spring is usually said to start in March.

9 What is a 'skein' of geese?

Answer: C. A group of geese flying

On the ground, a group of geese is called a gaggle.

10 What is it called when animals sleep deeply through the winter?

Answer: A. Hibernation

In the UK, only hedgehogs, dormice and bats truly hibernate among mammals.
